The Meaning of Joan Hornig Jewelry

The Joan Hornig Jewelry collection combines traditional elements with modern, unique design. References to nature and classical forms come alive with a freshness created through scale, balance, color and movement.

However, the beauty of each Joan Hornig piece extends beyond its aesthetic. One hundred percent of Joan's profits on each sale are channeled to the purchaser's charity of choice through the Joan B. Hornig Foundation. This unique model is intended to encourage women to use beauty and fashion in an entirely new way.

When you purchase a Joan Hornig piece, you are not only making an investment in a quality piece of jewelry, but also in our future. Choose your jewelry. Choose your charity.
